GoToWebinar to ask questions
throughout the webinar

2019

- Redesigned Start Page
- User interface improvements
- Updated project library and templates
- CSS variables
- Micro content authoring
- Zendesk publishing

NEW RELEASE FEATURES

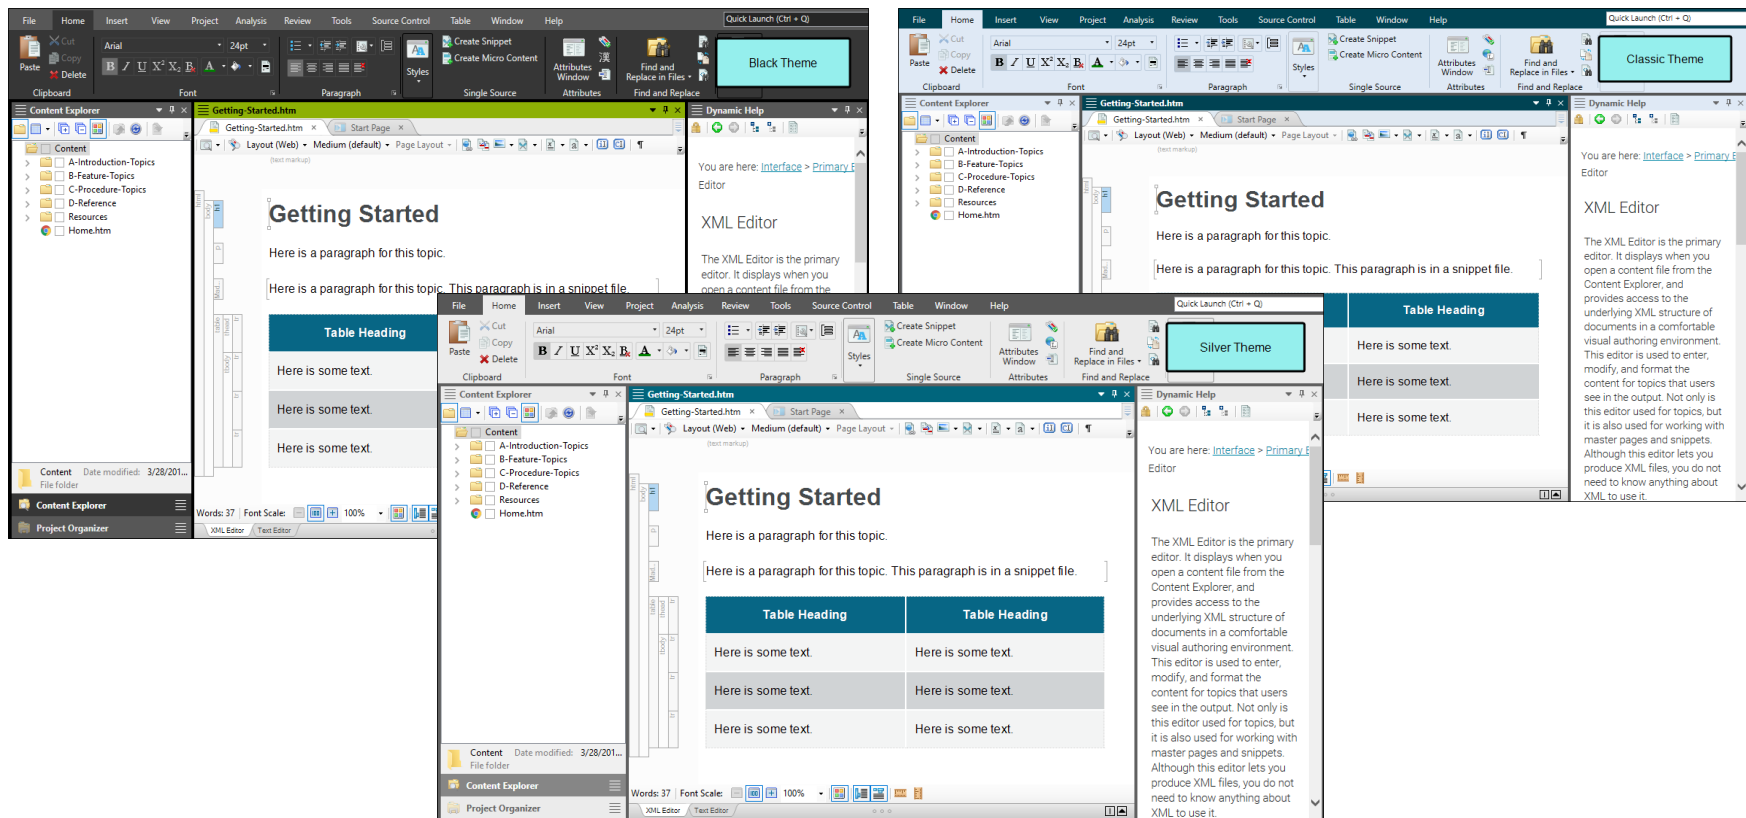

2019 R2

- Drag and drop import of Word, Excel, FrameMaker, and more
- Redesigned Microsoft® Word import wizard
- Confluence® import
- Output analytics for hosted and non-hosted content
- Responsive content personalization
- Accessibility improvements
- And much more!

Updated Interface

UPDATED INTERFACE THEMES

CSS Variables

CSS VARIABLES

- Assign the value once, and use it on many elements in your CSS
- Update changes to values in one place
- No need to use Find and Replace
- Colors, font family, size, and more

CSS VARIABLES

--Brand: #058a95;

CSS VARIABLES

h1

```
{  
    color: var(--Brand);  
}
```

CSS VARIABLES - CONSIDERATIONS

- Normal rules of inheritance and cascading apply to CSS variables
- They are case sensitive, so make sure you are consistent when creating and using them
- You can change the value under @media sections
- What about Internet Explorer?!

Confluence Import

MadCap Central

What is Madcap Central?

MadCap Central is a cloud-based platform that lets you plan, track, and manage processes, content, and teams that are responsible for producing documentation.

- Source Control
- Task Management
- Browser-based Review Workflow
- Build Management/Content Hosting/Translation
- Output Analytics – New (October 2019 Release)

Output analytics

- It's so easy!! Instant data with a few clicks
- No need to configure server side software
- Projects don't have to be bound to Central
- Targets can be published anywhere
- Gather analytics on an unlimited number of targets
- It's so easy!

Publish Directly to Central

PUBLISHING DIRECTLY TO CENTRAL

- Batch targets
- Pre and post build events
- Elasticsearch supported
- Auto-importing external resources
- Publishing a “project snapshot”

Additional Features

- HTML5 Accessibility Enhancements
 - ✓ Improved Keyboard Navigation
 - ✓ Skip to Main Content
 - ✓ Changing UI Text
- Zendesk Publishing Enhancements
 - ✓ Publish to Brands
 - ✓ New Content Options
- Frame 2019 Support

An aerial photograph of the Austin, Texas skyline at sunset. The sky is filled with orange and yellow clouds, and the city lights are beginning to glow. The Colorado River flows through the city, with several bridges crossing it. The downtown skyline is prominent, featuring numerous high-rise buildings.
