WHAT WE'LL COVER

- Introduction to Capture
- Introduction to Mimic
- Using conditions
- Using variables
- Using Capture profiles
- Why should I switch?

INTRODUCTION TO CAPTURE

(Demo)

INTRODUCTION TO MIMIC

(Demo)

USING CONDITIONS

- You can use conditions in call-outs.
- When your project builds, the conditions will be applied according to the target conditions.
- (demo)

USING VARIABLES

- You can use variables in call outs.
- When your project builds, the variables will be set based on the target's variables settings
- (demo)

USING CAPTURE PROFILES

- You can pre-set options so that all your captured images have similar settings, saving you time and effort using Capture profiles.

- You can re-apply profile settings to images that were captured with the profile settings, if you decide to change the profile settings.

WHY SHOULD I SWITCH?

- Power of single-sourcing
  - Variables
  - Conditions
- Translation of callouts
- Free!

Thank you!
