PRESENTED BY

*Mike Kelley – Principal Information Developer, inContact*

# *Customize All the Things!*

**CUSTOMIZE ALL**

To produce inContact's online help experience, we heavily customized the standard Flare TopNav project.

Additionally, we added other features by importing JavaScript plug-ins, fonts, and even created our own features when needed.

# *Some of inContact's customizations*

---

- Highly customized TopNav
- JavaScript to move search box on home page and topic pages
- Top-menu filtering (requires custom TopNav)
- Custom Zurb Foundation layout in OtherTopics master page for:
  - Topic body placement
  - Side menu placement
  - Breadcrumbs placement
- Imported Google fonts
- Font Awesome inclusion
- Hover maps
- Google Analytics
