Sharing Photos on Facebook for HTC Sense

You need to be logged in to your Facebook account to upload photos.

1. Press  and tap  > **Gallery**.
2. Tap the album that contains the photos you want to share.
3. Tap  and then on the Share options menu, tap **Facebook for HTC Sense**.
4. Select the photos you want to share and then tap **Next**.
5. Add a caption for the photos and then tap **Upload**.
6. Select which album to upload to and set privacy settings for the uploaded pictures. Tap **Done**.

Good SEO optimization, very poor results. Why? (5 posts)

Larry@midwestjourneyservices
Member
Posted 5 months ago #

Discussing <http://www.masoncityillinois.org>. I installed All in One SEO and it works fine. I installed Google web tools, and it says I'm all indexed. I put the words "Mason City Illinois" everywhere...titles, meta, site content.

Despite all this work, when I search "Mason City Illinois" on Google I don't show up anywhere in the first several pages. When I search for "masoncityillinois.org" it only shows my site after trying to get me to switch my search to ".com" instead.

It is a great city site, but no one can find it, and the city council is getting impatient. I am ready to make a real effort if I can get some help. Thank you.

The Web changes how people use content; not just content on the Web, but all content. If your content is not easy to find and immediately helpful, readers will move on almost at once. We are all children of the Web, and we come to any information system, including product documentation, looking for the search box and expecting every search to work like Google. There is no first, last, previous, next, up, or back anymore. Every Page is Page One.

For technical communicators, this Every Page is Page One environment presents a unique challenge: How do you cover a large and complex product using only topics, and how do you enable your readers to find and navigate topic-based content effectively?

Post-Migration Tasks

Updated: 2011-03-14

After you have imported all the data you need from your XenDesktop 4 farm to your XenDesktop 5 site, there are certain tasks you need to carry out before using the new site for production work:

- Create any administrators you need for the XenDesktop 5 site.
- Modify the imported desktops to use registry-based controller discovery and point them to the XenDesktop 5 controllers. You can do this in any of the three following ways:
 - Manually edit the registry as described in <http://support.citrix.com/article/CTX118976>
 - Set up a machine policy to distribute the list of controllers to the desktops, using the Virtual Desktop Agent settings
 - Use the Virtual Desktop Agent installer to reconfigure the desktops

Registry-based controller discovery is the default for XenDesktop 5, but Active Directory-based discovery is still available; for further details, see [Active Directory Considerations](#).

- Optionally, implement the following registry key settings as described in <http://support.citrix.com/article/CTX126704>: HeartbeatPeriodMS, PrepareSessionConnectionTimeoutSec, MaxWorkers, DisableActiveSessionReconnect, ControllersGroupGuid. keys are used.
- Take the imported desktops into production mode in XenDesktop 5.
- Check the XenDesktop 5 site to ensure that the PortIAC settings are correct on XenDesktop 5.

Free Checkered Pot Holder Knitting Pattern

The perfect gift for your favorite chef! These checkerboard pot holders are knitted using the intarsia technique and then felted in the washing machine to make them good and sturdy.

Size

Before felting: Approximately 11x13 1/2 inches (28x34cm)

After felting: Approximately 8x8 1/2 inches (20x21.5cm)

What You'll Need

Yarn: 100% wool worsted weight yarn, about 121 yards (111m) each in 2 colors (makes 2 pot holders)

We used: Knit Picks Wool of the Andes (100% wool; 110 yards [101m] per 50g skein): #23420 Coal (color A), 2 skeins; #23775 Fog (color B), 2 skeins

Needles: US size 8 (5mm) straight; US size 9 (5.5mm) double-pointed, set of 2

Notion: Tapestry needle

Gauge

18 stitches and 24 rows=4" (10cm) in stockinette stitch before felting

The eye-catching design of the Checkered Pot Holders stands out in any kitchen.

Note: When changing colors, drop the old color and bring the new color together to avoid gaps. For each section being worked, you must

Conform to a type

Making the Pot Holder

With color A and straight needles, loosely cast on 48 stitches.
